Healy Watch

Healy is a microcurrent medical device that has been cleared by the U.S. Food and Drug Administration for relief of acute, chronic, and arthritis pain and muscle soreness due to overexertion. Healy also has non-medical applications that use individualized frequencies to help balance your mind and body and relieve stress. Always use your Healy in accordance with its Instructions for Use.

Healy Watch is intended to support vitality and well-being, and is not a substitute for medical advice, which can only be provided by a medical professional. The physiological measurements displayed on Healy Watch and in the Healy Watch App are designed to help you develop healthier habits and meet your fitness and wellness goals, to guide you in using the programs available in your Healy, and to alert you to information that may make a consultation with a healthcare provider appropriate. No claims are made that Healy Watch or Healy Watch App readings are diagnostic of the presence or absence of any medical conditions. The content displayed by the HealAdvisor App does not constitute medical advice, which can only be provided by a medical professional. The Healy programs and other advice are recommendations that depend on user input. If you have or suspect you may have a medical condition, or if you are under the care of a healthcare professional, you should consult your practitioner before following these recommendations.

The content displayed by the Digital Nutrition App ('DNA' for short\*) does not constitute medical advice, which can only be provided by a medical professional. The substances, foods and Healy programs displayed are recommendations that depend on user input. If you have or suspect food intolerances, allergies, deficiencies or medical conditions, or if a supplement regimen has been recommended by a health practitioner, you should consult a physician or other healthcare professional before following these recommendations. \*

\* "DNA" stands for "Digital Nutrition App" and should not be confused with genetic testing, which is not provided by Healy.

# Facts and Figures

## 500,000 APPLICATIONS

More than 500,000 applications on clients and patients with TimeWaver and Healy technology and know-how.

## 40 COUNTRIES

TimeWaver Information Field technology has been successfully used in more than 40 countries.

## 2,000 PROFESSIONAL USERS

More than 2,000 doctors, healing practitioners and therapists are treating their patients using TimeWaver technology.

# Cell Membrane Voltage Model

According to Robert O. Becker  
and Bjorn Nordenstrom

# Positive Effects of Microcurrent Treatment

according to a study by Ngok Cheng et al.\*

- **Increases ATP production up to 500 %**

ATP stores energy in the cells, similar to gasoline in the gas tank of a car. ATP is produced in the cell by the mitochondria. The mitochondria are the ATP-producing "power plants" in each cell of the body.

- **Increases protein synthesis up to 70%**

Protein synthesis is the process by which proteins are formed to build cells. It means the creation of physical life, following the central blueprint which is stored as DNA in each of our cells.

- **Increases amino acid transport up to 40%**

Amino acids are the building blocks for protein synthesis.

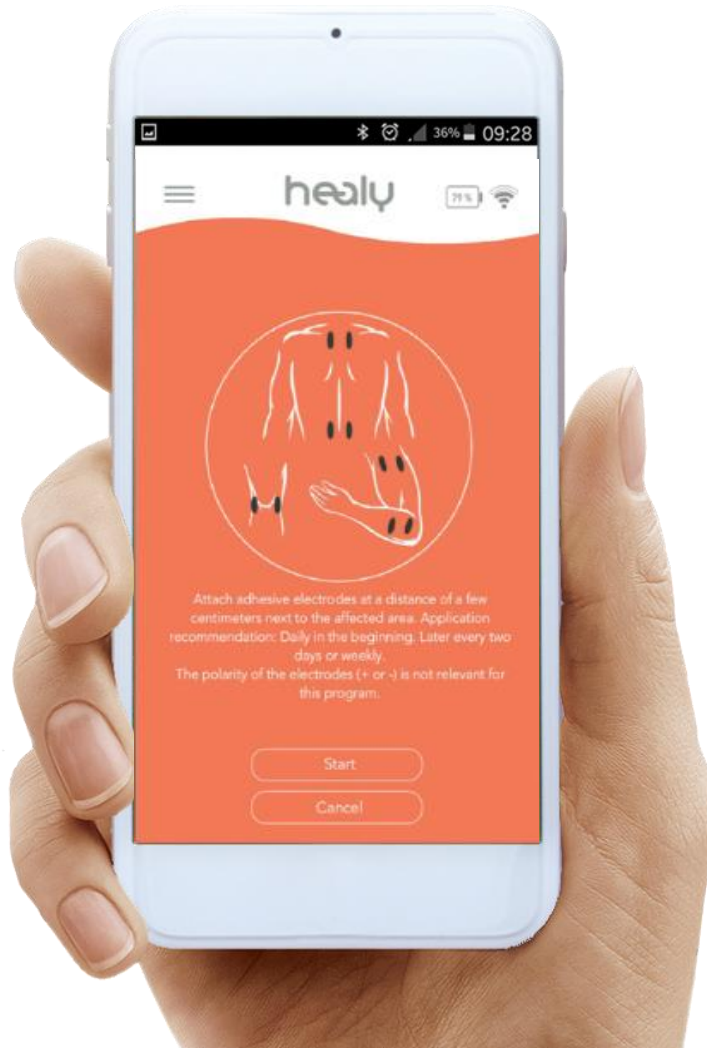

\* Clinical Orthopaedics and Related Research Nr. 171, November-December 1982. This animal study refers to the effects of microcurrent and the basic mechanisms on which Healy and TimeWaver Frequency programs are based. It did not include any Healy or TimeWaver systems.

Healy

# Application Mode

Adhesive electrodes

The primary application of Healy is its pain relieving mode. You apply the adhesive electrodes either near your area of discomfort or, for more general relief, on the wristbands that come with your Healy, and follow the Instructions for Use for pain relief.

# Freedom from Pain

- Constant or sudden pain can take away much of what makes your life worth living
- For many pain sufferers, it becomes the main focus of their life and their thinking
- Healy provides non-invasive, non-drug relief from acute, chronic and arthritis pain
- Also from muscle soreness due to exercise or work around the house.

Healy uses microcurrents on different areas of your body to relieve and manage pain. It even relieves muscle strains and soreness from exercise or work around the house. The Instructions for Use show you how to safely and easily use it for your sudden (acute) or everyday (chronic) aches and pains. Microcurrent treatment has been used by physical therapists for decades to reduce pain and relieve muscle tension.

The Healy World USA Compensation Plan is an exciting opportunity that rewards you for selling products and services and for sponsoring other participants (called “Members”) who do the same. Although the opportunity is unlimited, individual results will vary depending on commitment levels and sales skills of each Member. Because Healy World USA is in the process of compiling enough statistical data to prepare reliable income disclosures, the following numbers below reflect estimates prepared by the company pending a more detailed survey to soon be conducted. Based on industry standards and company projections, the average annual gross income for Members is projected to be anywhere between \$1,500 and \$3,000. There will certainly be Members who will earn less while others will earn much more. We’re excited about the Healy World USA Compensation Plan and we’re confident it will provide you a solid foundation to help you achieve your financial goals.

If income projections were presented to you prior to your enrollment, such projections are not necessarily representative of the income, if any, that you can or will earn through your participation in the Compensation Plan. These income projections should not be considered as guarantees or projections of your actual earnings or profits. The bottom line is that success with Healy World USA results only from hard work, dedication, and leadership.

The background is a solid magenta color. In the top right corner, there is a cluster of overlapping circles in various shades of purple and magenta. In the bottom left corner, there is another cluster of overlapping circles in similar shades. At the very bottom of the image, there is a horizontal bar divided into four colored segments: magenta, green, light blue, and dark blue.
